GOOD ADVANCE IN PRICE OF STOCKS

Strength and Animation More Apparent Than Real,

SUGAR WAS VERY ACTIVE.

Dealings in That Stock Were Larger Than in Any Other-Bond Market Irregular and Quiet. Local Markets.

NEW YORK, July 20.—The stock market made a greater show of animation and strength than for some time past, and the advances in price from the low point to the highest were in many cases fairly impressive. During the period of the advance the market looked strong and varied; but closer analysis of the day's results shows that the strength and animation were apparent rather than real. This is due to the fact that the advance began from the vantage fround of a considerable early decline in sympathy with depression in London and expectation that there might be announcements of gold exports by to-morrow's steamers.

ments of gold exports by to-morrow's steamers.

It was upon this stage of the speculation that there came the sudden and unexpected news that United States Minister Conger had been heard from by the State Department. The bears hastily covered their short contracts when this became known. But the publication of the text of the message which followed caused a chill to speculative sentiment as it did to warmer sentiments of humanity throughout the world. The market did not relapse to the low level again, and was held by the notable heavy ancy in different portions of the industrial list. Sugar was the central feature of the market all day, the dealings in the stock far outnumbering those in any other on the list.

The ground for the advance was the very large business reported in the sugar industry. Other points of strength were the tobacco stocks, on talk of a good forthcoming statement, the New York public additions on the hope of defeating assessments under the new franchise tax law, the Leather stocks, the Rubber stocks and Peoples Gas. The steel stocks were generally strong at advances of from 1 to 2%, the argument being that troubles in China would increase requirements for that product.

There was a late advance in Lacka.

In China would increase requirements for that product.

There was a late advance in Lackawanna of 3½ and in New Jersey Central of 1½. With these exceptions the railroad list shows no striking net gains. The whole market turned downwards in the late dealings when profit-taking became evident in Sugar. That stock lost about 2 points, and reactions in some other stocks extended from 1 to 2 points. The closing was thereby made heavy, and the net changes were reduced to fractions, except in a few of the specialties mentloned.

tioned.

The foreign exchange market was strong and moved up 1/2c., but the foreign exchange houses report that Paris is still the point of greatest attraction for gold, and that the next shipments will probably be made there, instead of to London. A favorable bank statement is expected to-morrow.

The bond market continued irregular and very quiet. Total sales, par value, \$1,050,000. United States new 4's declined 14 in the bid price.

The total sales of stocks to-day were

Very Reckless

An Irishman, the son of one who had been hanged, having been asked how his father died, thus eluded admitting the fact: "Sure, thin, my father, who was a very reckless man, was just standin' on a platform haranguing a mob, when a part of the platform suddenly gave way, and he fell through, and thin it was found that his neck was broken."

That was reckless of him, but it is almost as reckless.

creased the timidity in outside speculative circles caused by the sensational political news from China. The opening was easy, with first sales showing a drop of 6 to 11 points. The weakness did not culminate until August had failen to 9.07 and January 8.10. The South, the West, the foreign element and the room trade all sold freely on the slump, traders giving special attention to the August option. The cables received just after our opening conveyed the impression that longs in Europe were distrustful and inclined to unload as a matter of precaution. But with startling rapidity sentiment in the Liverpool market swung completely around near the close and badly frightened shorts here. Prices advanced with a rush, August climbing to 9.27 and January to 8.16 before a breathing spell was taken. Before midday a partial relapse set in. Rumors gained circulation to the effect that influential European bulls had formed a strong clique to bulge the summer months. This story lacked confirmation, but kept shorts on the uneasy seat the greater part of the session. The market closed quiet and steady, with prices net unchanged to 8 points lower.

STAPLE PRODUCTS LOWER IN PRICE Books OF

As a Result of the Improved Crop Conditions-

IRON PRICES SCRAPING BOTTOM.

A Favorable Feature Is the Increasing Number of Foreign Inquiries, Prices for Raw Cotton and Finished Material.

(By Associated Press.) NEW YORK. July 20 .- Bradstreet's to-

morrow will say: Improved crop conditions furnish the key-Improved crop condatons turness the key-note of the trade and price improvement. As a result of them nearly all staple ag-ricultural products are lower in price, and at the same time a perceptible livening up of demand for fall delivery is noted at the West, Northwest, Southwest and South. The beginning of fall trade is consequently more clearly visible in the sections men-tioned, while at the East the markets are

tioned, white at the East the markets are slower to experience this improvement, and are, consequently, seasonably duil.

Bank clearings as yet fail to reflect any perceptible improvement in distribution, and railway earnings, though in large volume, are, owing to comparisons being made with exceptionally good results last year, showing less notable increases, both in showing less notable increases, both in gross and net returns. Increased cost of repairs, betterments, fue; and wages are unitedly responsible for this latter feature, because gross receipts for lattest periods reported show continued though small

THE CEREALS.

Hog products have gone lower with corn, as has also wheat, in which continued liquidation has been noted with the result of inducing a partial return of the export inquiry banished from the market by the recent heavy rise.

recent heavy rise.

On the basis of a crop of 550,000,000 bushels, the outlook is that an export of 121,
20,550 to 150,000,000 bushels will be possible without reducing visible and farm supplies majerially from the totals estimated held on July 1st.

Iron and steel prices are evidently scrap-

ing on bottom, if reports from leading cen-tres of cost of raw material and wages are correct. Bessemer pig at Pittsburz is on a \$17 basis, with billets at \$21, against recorrect. Bessemer pig at Pittsourg is on a \$17 basis, with billets at \$21, against respectively \$20 and \$33'a year ago, so that much of the "boom" prices have given out Eastern and Southern from markets are lower than a week ago, No. 1 Northern foundry being off \$1 per ton, and low grade Southern iron is accumulating.

A favorable feature is the increasing number of inquiries from Europe, Soft coal is going abroad, too, a cargo leaving for London shortly.

The textile situation is a mixed one. Present prices for raw cotton and finished material don't harmonize. Chinese troubles have checked export trade in brown cottons, and a summer shut-down of mills producing these grades and print cloths is looked for.

The crop is emerging from "the grass"

in good condition. An encouraging feature is the rather better inquiry for raw wool at Boston, but manufacturers will not aparently do much until the light weight

that market has regained most of the loss shown earlier in the season. Business failures number 202 against 221 last week, 174 in this week a year ago, 188 in 1808, 220 in 1807, and 280 in 1806 in the

Thinks the Amendment Will Be De feated if Vote Is Fairly Counted.

(Special Dispatch to The Times.) RALEIGH, N. C., July 39.—Everything made to take down Populist Thompson and the Republican Adams head the State let Republican Adams head the State ticket. It also looks to outsiders that Dr. Thompson is kicking against coming down, and may yet prove a thorn in the side of

Senator Butler.
Governor Russell consented to be interviewed yesterday politically, ife thinks the amendment would be defeated if the vote is fairly counted, but he says it will vote is fairly counted, but he says it will not be counted correctly, so it will be carried and put into practice until it is stopped by the Federal courts. He refused to tell how the courts could stop it. He advises the negroes not to register and vote on this question, and he says he thinks comparatively very few of them will do so. He advises also to take down the political machine electoral ticket and put up an electoral ticket composed of non-political business men and thus try and save the State to McKinley.
